

KMH Systems

Trusted Partner In Rack Storage Systems

www.kmhsystems.com

Phase I - Discovery

- KMH provides a complimentary survey to review your current facility situation

Phase II - Evaluation

- KMH evaluates data to determine if there are compelling ROI and operational benefits

Phase III - Recommendations

- KMH constructs a proposal with detailed ROI analysis & CAD drawings of existing layout compared to new layout

Phase IV - Results

- Increased Storage Space, Safety, Accessibility, Durability, & Convenience

Storage Independence

Conventional Pallet Rack

Conventional Pallet Racking

Excellent stock control. Adaptable to any space, weight or size. Can combine with manual picking shelves. Versatile and easy to maintain, with a wide range of accessories to store virtually any load.

Cantilever Rack

Cantilever Rack

Easy assembly. Perfect to store long and heavy items. Very simple and resistant. Storing system used for long items that require being manipulated with mechanical means.

Gravity Flow Rack

Gravity Flow Rack

Perfect product rotation. More references at the front of shelves. Avoiding any interference in re-stocking and picking of materials. Manual gravity storage system that is ideal to reduce order preparation times.

Push Back Pallet Rack

Push Back Pallet Rack

Saves space and offers high storage density. Each level can store a different reference. Loading and unloading is done using the same aisle. Maneuvers are quick since the forklifts do not need to be in the storage lanes.

Drive-In Pallet Rack

Drive-In Pallet Rack

Optimizing available space. Elimination of aisles between shelves. Admits as many references as load lanes. Appropriate system to store homogeneous, low-rotation products with a large number of pallets per reference.

Built To Deliver Lets Discuss Your Next Project

We design and install the most effective industrial racks available. From pallet racks to drive-in racks, our customers receive the best service and most productive warehouse rack applications available. When your warehouse or distribution center needs industrial racks, we can help you find the best solution at the best prices!
