

Productivity Savings

Workers can be focused on value added tasks, not tasks that can be automated

Labor Savings

Seegrid products act as a direct labor offset and directly help to reduce the amount of manned travel time

Safety Savings

Reduced opportunity for injury, less product damage, enables consistent safe behavior, fewer injuries due to poor ergonomics

Ease of Implementation

WalkThruThenWork™ technology; grow the robot fleet & adapt to changing volume

Investment Savings

Lower initial investment than other technologies, lower total cost of ownership; no tapes, no wires, no lasers, no IT

Maintenance Savings

Familiar equipment and maintenance processes, less wasted time and cost than equipment such as AGVs
