

Accessories Equipment Cleaning Kit

The Equipment Cleaning Kit (ECK-4) contains all of the necessary materials to clean and neutralize battery acid build-up from battery handling equipment. The ECK-4 is easy to transport and allows technicians to clean and neutralize equipment while on the go.

Contents

- 4 32 oz (0.9 L) Bottles of Neutralizing Detergent*
- 2 Reusable Spray Nozzles
- 1 Pair of Safety Goggles
- 1 Disposable Apron
- 1 Pair of Nitrile Gloves
- 1 Combination Bristle/Scour Pad Brush
- 1 Scrub Brush with Knuckle Guard
- 2 1" (25 mm) Fine Bristle Brushes
- 1 3" (76 mm) Plastic Scraper
- 10 Disposable Shop Towel Rags
- 1 4 gal (15 L) Reusable Pail

Features & Benefits

- Convenient reusable pail organizes all necessary supplies
- Color changing detergent indicates when acid residue is completely neutralized*
- Ready-to-use solution eliminates the need for measuring and mixing
- Reusable spray nozzles attach directly to the solution bottle eliminating the need for a separate solution sprayer

* Detergent is a foaming agent and not for use with BHS BWC or RNS Systems
