TICO

**"SIMPLY"
THE BEST**

REAL WORLD ADVANTAGES

TICO Pro-Spotter terminal tractors have the real world advantages that make it the right choice. To your operations team, these are not little things – they are important features with real benefits.

Operator/Operations Advantages

- 1** Large Cab Interior Room
- 2** Optional "Fold-Away" Trainer's Seat
- 3** Air Operated Rear Door (no contortions needed to open/close door)
- 4** Optional Rear 72" Door
- 5** Full Vision Rear Door with Ground-to-Sky Visibility
- 6** Overall Outward Visibility Greater than Competition
- 7** Patented "Stair-Tread" 65 or 80 Gallon (optional) Fuel Tanks
- 8** Noise & Heat Abatement System
- 9** Optional Electric Boom Hoist Control
- 10** Standard Curb & Street Side Frame Access for Ease of Entry/Egress
- 11** 20 Degree Rear Frame Taper for Easy Trailer Pick-up
- 12** Exclusive Vibration Cancellation Power-Train Torque Cradle
- 13** Glove/Storage Box In-Cab
- 14** Full Width & Height Cab Protection Bar
- 15** All Exterior Walk Surfaces Differentiated in Hi-visibility Orange Paint
- 16** "Plug & Play" Dash with Ergonomic Layout
- 17** 20 GPM Hydraulic Pump for Faster Hoist Speeds

Maintenance/Cost Advantages

- 1** Cab Inset for Protection, Long Life & Resale Value
- 2** Massive Tubular Floor Frame and 1" Reinforced Corners
- 3** Rapid "Bolt-On Bolt-Off" Component System
- 4** Full Height & Width Cab Protection Bar
- 5** 65 or 80 (optional) Gallon Fuel Capacity
- 6** Continuous Welds on All Joints
- 7** Remote Coolant Surge Tank with Sight Glass & Low Coolant Sensor
- 8** Driver's Side Fueling with Engine Oil & Transmission Oil Dipsticks Accessible from the Ground
- 9** High Mounted Air Cleaner & Air Intake
- 10** Heavy Duty Boom Pin with Integral Grease Grooves
- 11** Composite "Corrosion Free" Cab with 5-Year Structural Warranty
- 12** Filter Minder at Turbo Charger Intake
- 13** Easy Access Fuse Panel on Outside Dash Housing
- 14** Cab Floor Washout Drain

MAXIMUM UP-TIME

At TICO, we know your business runs 24/7 in the real world and that maximum uptime is one of the most important benefits of any tool. Our Pro-Spotters have dozens of Standard Features that keep the products moving and more cost-effectively, and that are only add-on cost options at our competitors. Here are some examples:

Our larger standard 65 gallon fuel tanks are simple, common sense tools that will save you dollars on fuel delivery costs, and/or downtime with fewer stops to refuel.

TICO Pro-Spotters have an automatic open-close (air operated) rear door as Standard Equipment. The Pro-Spotter automatic door:

Is simple and fast to operate, thereby increasing productivity with the dozens of door operations per hour in your real world business

Provides convenient, direct dash activation that reduces turning and twisting while opening the door, versus other manufacturers low door handle position

FAST, SIMPLE MAINTENANCE

is a must with any capital equipment tool. Our extensive expertise in the ports, where each minute the ship sits waiting to get unloaded is a major cost, has driven us to build our Pro-Spotters accordingly. Our vehicles are:

Built on modular platforms to make sure most systems/parts can be removed and replaced in minutes, not hours or days (*Even our cab is designed to be replaced in less than a work day as a standalone module*).

Designed to be maintained and repaired by real world maintenance teams, not rocket scientists (*or should we say engineers*).

VALUE

Our TICO team stands behind every Pro-Spotter we build, and each one is designed to help your business grow.

Maximizing Asset Utilization & Tractor Performance

Generating Low Life-Cycle Costs

Providing Production Customization for Applications Which Meet Your Needs

Equipment & Service Solutions

TICO

MAXIMUM UP-TIME

Just Like You, We Use Pro-Spotters Everyday

We are **the largest fleet owner and operator in North America**. As such, we understand first-hand what happens in the real world when our Pro-Spotters leave the production line. And just like you, our experience has been gained through the real needs of the work place. The design and manufacturing of the TICO Pro-Spotter reflects this.

TICO (Terminal Investment Company) was incorporated in 1946 to serve the bus transportation industry by moving veterans to and from the ports. In working extensively at the ports, TICO's founder, J.A. Booker, saw a tremendous need for coordination and cooperation among the stevedores and distribution companies servicing the ports. Thus began forty plus years of growth and the current leasing of over 1,400 Pro-Spotters. Today, TICO proudly leases and sells Pro-Spotters throughout North America.
